### Calculator - Requirement for all Math Classes:

A **graphing calculator** is required for every student taking a math course in grades 9 through 12. Although the TI83+ can be used, we strongly advise purchasing the TI84+CE, or TI84+, Silver Edition, as these newer models (in the 11<sup>th</sup> grade specifically) will give the students a tremendous advantage. Should your daughter already possess a different calculator and know how to use it, she may do so, (but please bear in mind that instruction for calculator usage will only be provided for the aforementioned models).

**LBYHS has a limited number of TI84 Plus CE calculators available for a \$25 rental fee.**

We would like to point out that in the weeks preceding the new school year, many stores put these calculators on sale. We suggest that you begin shopping now, in order to take advantage of the sale prices. **Please label both the back and cover of the calculator with your daughter's name.**

Dictionary - Requirement for all grades - We are requesting that all students purchase The American Heritage High School Dictionary for class use.

**Erasable Slates:** It is requested that all students in grades 9-12 purchase an erasable slate (approximately 8 1/2" by 11" (or a similar size) with Expo (or any dry erase) Markers for classroom use.

**Plastic Sheet Protectors:** It is requested that 9<sup>th</sup> and 10<sup>th</sup> grade students purchase sheet protectors to be placed in a loose-leaf binder for Halacha classes.
